Cost and time Estimation

According to our WBS our main budget will be distributed among developing the Application and the marketing.

Item	Cost	frequency
3 software developers	45,000	Monthly
2 marketers	25,000	Monthly
1 PM	20,000	Monthly
Marketing plan costs	200,000	One time
Softwares & devices	40,000	One time

Since the project has 3 phases including planning till the development and testing and taking customer's reviews so the project might take up to 4 months so our total cost will be:

600,000 EGP and 4 Months duration.
